

As a developer

✓ Visual Studio .NET  
(consists of Editor and .NET Framework (it has CLR and reusable - microsoft provided - DLL files))  
where do you / developer get this? — <https://visualstudio.microsoft.com/vs/community/>

As a client / end customer

need to install .NET Framework (it has CLR and reusable - microsoft provided - DLL files)  
where do you / client get this? - <https://dotnet.microsoft.com/en-us/download/dotnet-framework>
