

As a developer

Visual Studio .NET

(consists of **Editor** and **.NET Framework** (it has CLR and reusable - microsoft provided - DLL files))

where do you / developer get this? — .

As a client / end customer

need to install **.NET Framework** (it has CLR and reusable - microsoft provided - DLL files)

where do you / client get this? - <https://dotnet.microsoft.com/en-us/download/dotnet-framework>
